MRS. BARNEY HARVEY'S SUIT AGAINST HER HUSBAND.

She Claims She Gave Him in Trust 810,000 During Their Married Life-Fred Gray Found Not Guilty of Assault With a Deadly Weapon -Case Argued in the State Supreme Court-Proceedings in the Federal Court.

Judge Street yesterday delivered judgment in the case of the North Point Irrigation company against the Ulah and Sait Lake Canal company. Salt Lake City, Salt Lake county et al., which was tried some weeks ago

centain rights to water from the Jordan river and the right to conduct the water through a ditch known as the surplus canal from the river at a point near the south line of township I south, range I west, northwesterly from the river. The plaintiff also claims ownership of an extensive system of irrigation ditches northwest from the surplus canal, by which water is conveyed from the river upon the surrounding lands. The defendant companies, it is stated, own and operate a system of canals south and west of the plaintiff's canals, and that the defendants take from the Jordan river more water than they require, and that a large amount of wasse water is turned upon the neighboring alkali lands, thus forming a succession of lakes and sloughs filled with alkali water, and that defendants have drained these alkali waters into Decker lake, so befouling the waters of that lake that they are unfit for irrigation or culinary purposes, and that to make matters worse the defendants, it is alleged, have conducted the befouled waters of Decker's lake into the striplus canal, befouling the canal also.

The county and city of Salt Lake are made party defendants for the reason that, as alleged, they have some interest in the surplus canal and have assisted the other defendants in wrongfully conveying the alkaline water into Decker lake.

The plaintiffs claim they have by the
